

Mattresses and Furniture

Your Guide for Safe Disposal and Recycling in Calumet County

How do I get rid of my old mattress and furniture?

Mattresses and furniture are usually not taken during curbside pick up because of how large they are. Sometimes when you get new a new mattress or other furniture you ask the retailer if your old things can be hauled away. Otherwise most counties have bulk pick up or drop off days.

Another option would be that if the mattress or furniture are in good shape, meaning there are no stains or damage, you can donate them.
